

## New Febreze Lavender and Camomile

**Febreze's new Lavender & Camomile variety is fresher and more fragrant than ever.**

Lavender and Camomile is the latest hot fragrance to be hitting shops in the UK and has already had enormous success in Bold 2in1 and Lenor Sleep Sensations. Now this scent combination is back in new Febreze Lavender and Camomile.

Febreze's new relaxing formula.

The reason why Lavender and Camomile is becoming so popular is that they interact and compliment each other so well. The lavender's unique scent is relaxing, natural and has a pleasantly down-to-earth quality that is quite nostalgic and reassuring. The camomile is gentle and also has a soothing effect.

Using Febreze Lavender & Camomile around the house like normal – adding a burst of freshness to your home – you can create a truly welcoming and relaxing atmosphere.
