

Help prevent dirt from sticking with flash

Have you ever wondered what it would be like if the dirt didn't stick fast? Have you ever wished you didn't have to waste so much of your time and energy on cleaning? Well thanks to Flash with new Flashguard, things just got a little bit easier for you.

FlashGuard technology was inspired by nature, where leaves and fruit create their own protective layer against dirt, which is then easily washed away by the next rain shower. New Flash with Flashguard uses the same principle and creates an effective protective barrier on your surfaces actually preventing dirt from sticking. Meaning the next time you clean, it won't be such hard work!

For over 45 years, Flash has been cleaning the nation and ensuring our homes are spic and span. By introducing FlashGuard breakthrough technology, which actually helps prevent dirt from sticking, we're enabling the nation to clean more quickly and effortlessly for maximum results.

Flash, with the fantastic new technology of FlashGuard is available across our range of multipurpose liquids, sprays and wipes.
